

1. INSERT Statement

Student Table

Student_ID	Student_Name	Age	Course	City
101	Rahul	20	BCA	Delhi
102	Priya	21	BBA	Meerut
103	Amit	19	BCA	Noida
104	Neha	22	B.Tech	Bareilly

Assignment Question

Write an SQL query to insert the following student into the `Students` table:

Student_ID	Student_Name	Age	Course	City
105	Rohit	20	MCA	Lucknow

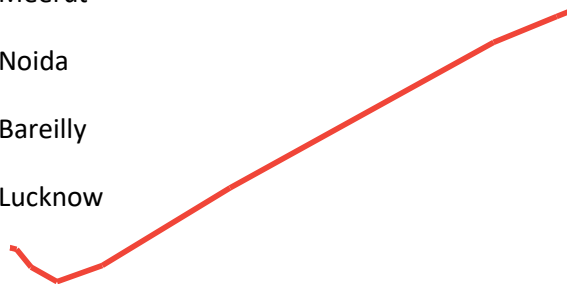

Correct Query

```
INSERT INTO Students (Student_ID, Student_Name, Age, Course, City)
VALUES (105, 'Rohit', 20, 'MCA', 'Lucknow');
```

2. SELECT Statement

Student Table

Student_ID	Student_Name	Age	Course	City
101	Rahul	20	BCA	Delhi
102	Priya	21	BBA	Meerut
103	Amit	19	BCA	Noida
104	Neha	22	B.Tech	Bareilly
105	Rohit	20	MCA	Lucknow

Assignment Question

Write an SQL query to display the `Student_Name`, `Course`, and `City` of students who are studying BCA.

Correct Query

```
SELECT Student_Name, Course, City
FROM Students
WHERE Course = 'BCA';
```

Expected Result

Student_Name	Course	City
--------------	--------	------

Rahul	BCA	Delhi
-------	-----	-------

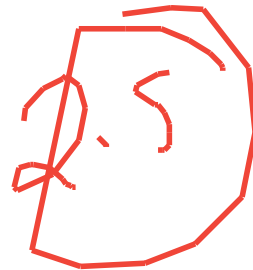

Amit	BCA	Noida
------	-----	-------

3. DELETE Statement

Student Table

Student_ID	Student_Name	Age	Course	City
101	Rahul	20	BCA	Delhi
102	Priya	21	BBA	Meerut
103	Amit	19	BCA	Noida
104	Neha	22	B.Tech	Bareilly
105	Rohit	20	MCA	Lucknow

Good!

Assignment Question

Write an SQL query to delete the student whose `Student_ID` is 104.

Correct Query

```
DELETE FROM Students
WHERE Student_ID = 104;
```

Table After DELETE

Student_ID	Student_Name	Age	Course	City
101	Rahul	20	BCA	Delhi
102	Priya	21	BBA	Meerut
103	Amit	19	BCA	Noida
105	Rohit	20	MCA	Lucknow

4. UPDATE Statement

Student Table

Student_ID	Student_Name	Age	Course	City
101	Rahul	20	BCA	Delhi
102	Priya	21	BBA	Meerut
103	Amit	19	BCA	Noida
105	Rohit	20	MCA	Lucknow

Wrong

Assignment Question

Write an SQL query to change Rahul's course from BCA to MCA.

```
UPDATE Students
SET Course = MCA
WHERE Student_ID = 101;
```

0
